NEW BANK ORGANIZED

At Millersburg With a Capital Stock of \$25,000.

For several months there have been rumors of a new bank being organized at Millersburg, this county. No conclusion was reached until Tuesday afternoon, when the new bank was organized with a capital stock of \$25,000. The following well-known citizens were elected as officers: President, Dr. W. M. Miller; vice president, W. P. Shanklin; directors, J. W. Stewart, J. D. Booth, K. D. Burrows, O. R. Rankin, Dr. C. W. Mathers, Jno. R. Taylor. As yet no cashier has been elected but the board is considering several applicants.

The above named gentlemen have taken up the \$25,000 capital stock, but as soon as the charter is granted will sell some of their stock to those whom they desire to have associated in business with them. This directory is made up of the most enterprising and substantial business men of that community, whose wealth aggregate about \$500,000. The name of the bank and place of business have not yet been settled on. They hope to open for business by September 1st.

This makes ten banks for Bourbon county, all substantial and flourishing institutions.

Resolutions of Respect

Resolutions passed by the Baptist Sunday School, Sunday morning on the death of Aileen Kenney, who died on the evening of May 6th.

Whereas, It has pleased our heavenly Father to remove one of our fairest and purest scholars to a higher and nobler life.

Be it resolved, First, That we bow in humble submission to Him who "doeth all things well" and while it was His will, we deeply grieve but rejoice that we have had her beautiful life and example in our midst. She was a devoted member of the Sunday school and an enthusiastic worker for the new church building. She was a shining light in her home, ever ready to help father and mother in every way. We with many friends extend to the family tenderest sympathy.

Second, That these resolutions be spread upon our minutes and a copy be sent to the bereaved family.

Respectfully submitted,
MRS. WOODFORD SPEARS,
MRS. WALTER CLARK,
MRS. SPEED HIBLER.

BIRTHS.

The general public, doctor's wives and sweethearts are especially invited to be present.

A Year of Blood.

The year of 1903 will long be remembered in the home of F. N. Tacket, of Alliance, Ky., as a year of blood; which flowed so copiously from Mr. Tacket's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for sore lungs, coughs and colds, at Oberdorfer's drug store. Price 50c and \$1.00. Trial bottle free.

CORPORATIONS VS. PEOPLE.

The campaign for the enforcement of law inaugurated by the proceedings brought against the Northern Securities merger and continued by the prosecution of the Beef, Tobacco and other trusts, is gradually shaping things political for 1908. Prodded by the President, and pressed by the Department of Justice, corporations are preparing to defend their interests by nominating a presidential candidate and planning for a larger representation in Congress. So confident are they of success that a prominent corporation official has not hesitated to say of the President: "He has given us of his advice most generously on every subject from the size of our families to the mistakes of the Federal judges; he and his subordinates have interested themselves in our affairs to an extent unprecedented in the history of our government."

Fostered by a protected tariff, the moneyed and corporate interests of this country have grown so strong that they observe law when convenient, but violate it when their purposes require. They have pursued this course because they could do so, they owning legislators and controlling judges. They are unwilling to distinguish between interference with such course and investigation of their businesses. What is more to the point they do not propose to distinguish, in evidence of which purpose they not only boldly criticize the President, but openly declare their intention of securing the election of a successor who will recognize their "rights" and "privileges." In other words, they serve notice that the next presidential campaign will be fought on the issue of the corporations vs. the people.

This is the first time in the history of the country that money has opposed itself avowedly and openly to the people themselves. The campaign of 1892 presented conditions leading to the suspicion that corporate interests were taking a very interested part in the election. The campaign of 1896 in a large measure sustained the charge that corporate interests were behind the Republican candidate, although at that time conditions existed which seemed to deprive that charge of the force and influence it might otherwise have had. During the campaign of 1900 the same conditions were accentuated so that the people were given little opportunity to register the protest that they otherwise would have made. President Roosevelt declines to run again, that suits them, for he has been a sad disappointment to the trusts and corporations. Another man must be elected. The corporations propose to have their innings.

With notice served so far in advance by the corporations, the people, the real rulers, ought to be able to demonstrate their power to continue the campaign of law enforcement now fully inaugurated. If they fully understand the political conditions, there is no doubt they will do so. That they do understand them should be the purpose of every intelligent patriot, for the issue of 1908 will be of supreme importance to the general welfare. It is bound to be a Democratic year for the Democratic party is the peoples party.

MUST HAVE AMOUNTED TO MILLIONS.

It now appears that Fields, the lobby agent of the Mutual Life Insurance Company, will be asked to account for the expenditure of almost \$2,000,000 for political purposes. For the Lord's sake! how much did Cortelyou and Babcock get of the funds that should have been sacred to the widows and orphans of policy holders? And with the other insurance companies and the trusts and railroads still to hear from, the amount received by the chairman of the Republican national and congressional committees must have amounted to many millions. No wonder the Democrats were defeated. The worst of it is that the election of President Roosevelt is stained with these tainted millions of which no restitution has been made to the real owners.

FIRST POLITICAL MOVE DUE TO EARTHQUAKE.

Bills have been introduced in Congress suspending for one year the duties on structural steel and other necessary materials for use in the construction of buildings in San Francisco and other Pacific coast cities affected by the recent disasters. This is the first political movement due to the earthquake.

If the stand-patters have their way these bills will be defeated, on the principle that there must be no crack in the Dingley tariff wall, lest the people should discover that it was not of divine origin. It is all right to give money after it has been collected from the people by taxation, but it would be sacrilege to allow anybody to buy steel and lumber not protected by a tariff tax.

GETS GRAND BOUNCE.

The Republican city of Omaha has given the G. O. P. the grand bounce by electing a full set of Democratic officials. This indicates that even Nebraska Republicans are bound to have retrenchment and reform, which their own party will not furnish.

BUZZARD WITH TIN CAN.

For Five Years the Bird Carried the Unusual Attachment.

Thomas Head, a well-known young farmer residing two miles south of Davidson, S. C., captured near his home the first of last week a big black buzzard which had dangling to its neck a small tin can. Mr. Head had no difficulty in catching the bird. He cut the string and found within the little shining baking powder can the following note:

Mount Pisgah, Alexander County. This buzzard was captured by N. R. Stout, May 20, 1901, near Sharpe's mill. If any one captures it again please report to the Statesville Mascot, Statesville. This was done to try to find out how far buzzards range.

N. R. STOUT. The question presented is an interesting one. The buzzard referred to had carried the tin can wherever it went for almost five years. After half a decade of roving it was recaptured about 50 miles from the place where first taken captive.

An All-Night Bank.

The first "all-night bank" in the world has been opened for business in New York city. It will keep open for business all the time except Sundays, and is equipped with safety vaults that will also be kept open day and night. The idea seems to have been so unique that the opening of the bank received a vast amount of advertising in the columns of the papers. Just why a bank should not keep open twenty-four hours a day has not been explained. The interest you have to pay the bank keeps working every hour in the day, and on the ground that work is worth its equivalent it may be only right that the bank should work as long hours as its interest accounts.

Made Happy for Life.

Great happiness came into the home of S. C. Blair, school superintendent, at St. Albans, W. Va., when his little daughter was restored from the dreadful complaint he names. He says: "My little daughter had St. Vitus' Dance, which yielded to no treatment but grew steadily worse until as a last resort we tried Electric Bitters; and I rejoice to say, three bottles effected a complete cure." Quick, sure cure for nervous complaints, general debility, female weaknesses, impoverished blood and malaria. Guaranteed by Oberdorfer, the druggist. Price 50c.

BERNHARDT AT LEXINGTON

Noted Actress to Appear at Auditorium on May 30th.

Sarah Bernhardt will appear at the Woodland Park Auditorium at Lexington Wednesday, May 30. This will be one of the most important theatrical engagements which Lexington has ever had and a large and brilliant audience is expected. The distinguished French actress will be supported by her own company from Paris and will present Dumas' great play, "Camille."

Madame Bernhardt is nearing the end of her farewell tour of this country and Lexington is one of the last places in which she will appear. The large capacity of the Woodland Park Auditorium insures choice seats for those who will attend the performance, and for the accommodation of those who reside outside of Lexington arrangements are being made for excursion rates and special trains and cars on all railroads and trolley lines. The advance seat sale opens at Graddy and Bradley's Friday morning, May 25, and the price of seats will be one, two, and three dollars, according to location. All mail orders sent to Robert T. Gunn, Manager of the Lexington Railway Company, will receive prompt attention if accompanied by remittance and a stamped envelope.

NO CONTEST

But a Plain Business Proposition.

Chance to Make \$50 in Gold.

Every Young Lady in Bourbon Eligible.

People are always crying "keep the money at home," and to help carry out this motto the Bourbon News is going to make a plain business proposition to the young ladies of Bourbon county, whereby they can take a trip to any place they desire and at the same time assist in pushing a home enterprise along without any scrambling contest whatever and also at the same time everybody will get value received for their investment. This is no contest where there will be any disappointments. No contest where some young lady will run in the lead until the last minute and then the one who has been running last to come in and defeat her by having her friends to buy enough coupons or subscribe for enough papers, to make her win over the one that has led throughout the contest. Our proposition is no fake, but simply a plain business proposition and is as follows:

Any young lady of Bourbon county who will bring to the Bourbon News office on or before July 15th, 1906, 75 cash subscribers we will give her \$50 in gold, to be used as she likes.

Any old subscriber who is in arrears and pays up to date and for one year in advance to any of the young ladies who accept our offer will be counted in their list of new ones.

This proposition is open to every young lady in the county, and just as soon as you hand in the seventy-five names with the cash subscriptions, the \$50 in gold will be handed to you.

PEALE COLLIER & CO.

—Milton Trotter, colored, attempted suicide Sunday by taking a composition of ammonia and St. Jacob's Oil. This did not do the work and he made a second attempt Monday about noon by shooting himself just over the heart with a .32 calibre revolver. The gun was a bad one and the ball did not enter very deep, ranging along the surface toward his right side, inflicting only a flesh wound. It was extracted later by Dr. W. G. Dailey. Trotter is

doing nicely and will be out in a few days. He was one of the leading exponents of license during the local option election campaign and the only orator on that side of the question, delivering one or two addresses in one of the colored halls. Rather than see whisky go he decided to take wings and fly, but since making such a bad job of it he has decided to remain awhile longer and watch results.

—Mr. and Mrs. Oda Henson, who were recently married have begun housekeeping in the rooms of Dr. W. M. Miller, over the office of Miller & Best.

—The union temperance meeting at the Methodist church Sunday evening was greeted with a large audience and was very enthusiastic.

—A fresh stock of Jap-a-Lac—any color you want at
MILLER & BEST'S.

—The young married couples of the community enjoyed an outing Wednesday spending the forenoon up the creek fishing and the afternoon at the pond of Mr. Ed. Hunter. At noon they served a tempting lunch, which was enjoyed by all. Several of the ladies were successful and drew quite a number of fish from the water.

—Lost—A card case containing a 20k plain gold ring, on Friday, May 11th, between the bank and Mrs. Belle Armstrong's residence. Finder will please return to Mrs. Armstrong and receive reward.

—Strayed or Stolen.—A dark brown mare about 15 hands high without a blemish, a good-looker in harness, strayed or stolen from the home of Mr. Ed. Wagoner on Jacktown pike Saturday night. The finder will please return to owner or J. H. Linville, at Millersburg, and receive reward.

—The remains of Judge J. T. Morford, who died at his home in St. Louis, were shipped Saturday to Brooksville, Ky., for burial. Several years ago Judge Morford was married to Mrs. Bettie Frank Redmon, of this place. For several years he conducted a dry goods store here. Some ten years ago he moved to St. Louis, where he has been identified with the business interests of that city ever since. He has been in failing health for some time. He was an affable and agreeable gentleman.

PARIS BOY

Make Strong Arguments Against
Municipal Ownership.

The second joint debate held under the auspices of the Kentucky Inter-Collegiate Debating Association at Georgetown Tuesday night between Kentucky University and Georgetown resulted in a victory for the Gold and Black of Georgetown.

The debate was very successful, and it was only after a splendid fight that the Georgetown team was able to win. Georgetown represented the affirmative side, the subject being: "Resolved, That the Municipal ownership and Management of the So-called Public Utilities is Both Feasible and Expedient in the Cities of the United States."

Kentucky University was represented by R. M. Talbert, R. B. Hutchcraft and Clifton Harbison, and Georgetown's representatives were, J. H. Wells, A. L. Crawley and E. O. Cottrell. The judges were: Judge R. L. Stout, C. E. Marvin, H. K. Taylor, Prof. E. M. Costello and Hon. J. W. Cammack.

We are told by several who were present, including one of the judges, that Mr. Reuben Hutchcraft, son of Mr. and Mrs. R. B. Hutchcraft, of this city, made the strongest arguments of either of the debaters. He speaks with ease and is a strong debater, and, as heretofore in debates, shows his thorough knowledge of his subject. We predict a bright future for this young man as we hear nothing but praise of him every time he has been selected for duty by his college.

DEATHS.

—Mrs. Mary J. Herrin, aged 24 years, wife of Mr. Edward Herrin, died at her home on West Street, early Wednesday morning, of consumption. Mrs. Herrin is survived by her husband and two small daughters. Truly sad, that a loving and affectionate young wife and mother should be taken yet we must bow to the inevitable and look to the only living and true God, for comfort, for He is our only refuge in such hours as this.

Funeral services were held at the residence yesterday afternoon at 2 o'clock, conducted by Elder Carey E. Morgan. Burial at Jacksonville cemetery.

For the Porch.

A pretty hammock adds greatly to the beauty of your porch or lawn and would really make a pretty decoration during the Conclave. I have the best line ever shown in Paris.

BROWER'S

Our Department of Fine Arts

We have long recognized the need of a studio in Central Kentucky—that displayed nothing but tasteful, quietly pleasing objects that possess artistic merit. Goods that are distinctive—and pleasing for that reason.

Some time ago we added to our store a department of just this sort. In it one finds excellent pictures in all recognized processes of Art—Brasses, Electroliers and Lamps of pleasing designs, Colonial Mirrors, Candelabras with old-fashioned glass prisms. In short, we have a department in which one can find articles that are a pleasure to give and receive as presents—that add an additional air of elegance and refinement to any room in which they are placed. You are cordially invited to call on us.

One of the largest fish catches yet reported was made Wednesday by Newt. Current, Chief of Police Hill and City Electrician Ed Hite. The strings of each measured some three or four feet in length and were made up of some of the choicest red eyes, bass and new-lights.

Whenever you want nice up-to-date jewelry A. J. Winters & Co.'s is certainly the place for they are in their new store opposite Court House with new goods and a first-class watchmaker and jeweler.

Traction Magnets Visit Paris.

Seventeen of the stockholders of the Lexington and Interurban Railway Company were in Paris yesterday looking over their property in this section. They inspected our new court house and was much pleased with Paris and the surrounding country.

Accompanying the delegation were the following citizens of Lexington: Mayor Thos. A. Combs, Judge F. A. Bullock, Judge Jerry R. Morton, Geo. C. Webb, John M. Skain, T. D. Murray, R. C. Stoll and Manager R. T. Gunn.

BASEBALL.

Paris vs. Lexington This Afternoon.

The game of ball yesterday between Paris and Georgetown resulted in a score of 17 to 5 in favor of the home team. It was decidedly too one-sided to be interesting, but the one this afternoon with our old time rivals, Lexington, will be a hot number. The game will be called promptly at 3:30. Lexington has a strong team, and the Paris rooters want to be on hand to give a hand to the Paris boys. Daringer and Hill will be the battery for Paris, while Guyme and Archdeacon will be the battery for Lexington. The Paris team has been strengthened by the addition of Willinger first base, and Detscher, third base.

Varden & Son have offered a bat to the first man on the Paris team that makes a home run.

The All-Kentuckians, of Covington, will be the attraction for Sunday. This is undoubtedly one of the strongest teams around Cincinnati, having shut out the strong Anderson's Ferry team last Sunday by a score of 2 to 0.

Swearingen and Moeller will be the battery for Paris in this game. Catcher Moeller will not be in the game today, having been called home on account of the death of his nephew, but will be back in time for the game Sunday.

The Street Oiling Proposition.

Mayor O'Brien authorizes us to say that the city will oil the side streets from Second to Twelfth and in front of the churches free of charge. The charge fixed is five cents a lineal foot on all other streets. It is impossible for the city to levy a tax for this oiling of the streets, and it is out of the question for this amount of money to be taken from the general fund for this purpose, so if you want the street oiled in front of your residence report to the Mayor. Everybody has been crying about oiling the streets, yet there has only been one person to report to the Mayor and pay up. That person was the editor of the News, his residence fronts 33 feet and it cost him \$1.65. Get in line and let the oil wagon get to running.

—One of the most delightful affairs given lately was the reception given yesterday afternoon by Mrs. Ford Brent, at her handsome home on Pleasant street. The day was an ideal one for a reception and about four hundred guests called during the hours from two until six. Quite a number came from Lexington, Georgetown and Versailles, where Mrs. Brent was very popular before her marriage a few years ago.

The house, which is one of the most attractive, was beautifully decorated with cut flowers, ferns and plants.

The handsome mahogany table in the dining room where refreshments were served was further adorned with a tall vase of white peonies on a lace center piece, with cut glass plates of bon bons surrounding this. Lunch was served in library from a beautifully decorated table.

In the receiving line were Mrs. Brent, Mrs. Wallace and Mrs. Charlton Alexander, Sr. Others who assisted in entertaining the guests were Mrs. Cordie Parker, Mrs. Charlton Alexander, Jr., Mrs. Mary P. Forman, Misses Graddy, of Versailles, Bettie Brent Johnson, Matilda Alexander and Elizabeth Hinton. Sweet music was heard from an orchestra during the entire afternoon.

Flowers for funerals, weddings, etc., furnished by Jo S. Varden. Both phones. 1t

A TORPEDO BOAT

Which Runs Without a Captain Or a Crew.

An engine of death, the wireless torpedo boat, which will in probability revolutionize the navies of the world and make the extended coast line of the United States impregnable from attack by a foreign foe in time of war, is the invention of Charles E. Alden, the well-known New York sculptor, but who is now experimenting at his summer home at Cottage City, on the island of Martha's Vineyard.

A boat without a crew, handled from the shore by a mysterious apparatus, the work of the inventor, and doing everything that the latest improved type of torpedo boat is capable of as far as the eye can see from shore, has been successfully operated by Mr. Alden.

Obedient to the Hertzian waves used in the different systems of wireless telegraphy, this boat weighs its own anchor, blows its own whistle, starts its propeller, turns to starboard or port or keeps a straight course ahead, turns its searchlight, fires a cannon in its bow, drops and hoists its anchor, stops, backs and goes ahead again, lights signals, and discharges a torpedo from its tubes. Such are the things Mr. Alden's boat has accomplished.

The device of Mr. Alden is comparatively simple. By putting the several forces of wireless telegraphy together he can stand on the shore with his transmitting apparatus, launch this engine of death, and with a touch here and there on the instrument, like working a typewriter, transmit electric impulses through the ether by ether alone to the torpedo boat.

Speaking of his great invention, Mr. Alden said: "The idea came to me while standing on a pier of Cottage City during the summer of 1900, and I at once went to work to put this idea into reality, with what success the public can determine."

Mr. Alden said that the practical uses of the wireless boat were innumerable, and could not at the present time be estimated.

The inventor was born in Boston, September 14, 1864. Since finishing school he has lived the life of an artist, student, traveler and student of science. He became a resident of New York city, which for years he made his headquarters.

At the time when the invention was a remote possibility, naval experts had the utmost confidence and gave their opinion as to the success of the boat. Lieutenant Van Duzer, one of the best known authorities on naval warfare in this country, and who has worked much on matters of this nature, says:

"There is no special difficulty in making a boat of this kind. The chief trouble is in the steering apparatus on such boats. I have seen boats go straight ahead for a distance, but that's all. But I am convinced that the idea has been hit upon this time."

Perhaps It Cured Him.

Captain Mark Casto was being congratulated on his gift of \$1,500 from the Carnegie Hero Fund for bravery in the wreck of the Cherokee.

"The gift was unexpected," said Captain Casto, with a modest smile. "It was as unexpected, though by no means as unpleasant, was the report that a wife made to her husband when he came home at 3 o'clock in the morning."

"The man came home very quietly. In fact, he took off his shoes on the front doorstep. Then he unlocked the door and went cautiously and slowly upstairs on tiptoe, holding his breath. But light was streaming through the keyhole of the door of the bedroom. With a sigh he paused. Then he opened the door and entered."

"His wife stood before the bureau, fully dressed."

"I didn't expect you'd be sitting up for me, my dear," he said.

"I haven't been," she said. "I just came in myself."

The Chinese minister's intimation that one of the members of the house is untruthful must not be accepted as an alibi for the other 385.

Deep In The Mud.

Congressman Longworth, at his bachelor dinner, told a story about mud. "An American in Liverpool, waiting for a boat home," he said, "ate his last dinner on foreign soil with an Englishman."

"The Englishman complained of the mud in America. He told a number of tall stories about the execrable roads of America and the scrapes they had gotten him into, both walking and driving."

"At the end of a particularly tall story of this kind the American said:

"Yes, we have a lot of mud in America. I admit it. It is nothing to me mud over here though."

"Nonsense," said the Englishman. "Fact," the American replied. Why, this afternoon, on a walk out hester way, I had a remarkable adventure—came near getting into trouble with an old gentleman, all through your cursed mud."

"Some of the streets are a little reasy at this season, I admit," said the Englishman. "What was your adventure though?"

"Well," said the American, "as I was walking along Bold street, I noticed that the mud was rather thick, and presently I saw a high hat afloat in a large puddle of very rich ooze."

"Thinking to do someone a kindness, I gave the hat a poke with my stick, when an old gentleman looked up from beneath, surprised and frowning."

"Hello," I said, "you're in pretty deep."

"Deeper than you think," he said. "I'm on top of an omnibus."—St. Louis Globe-Democrat.

FACTS IN NATURE.

Not Only Do We Get Inspiration From Nature, But Health as Well.

For people who are run-down and nervous, who suffer from indigestion or dyspepsia, headache, biliousness, or torpid liver, coated tongue with bitter taste in the morning and poor appetite, it becomes necessary to turn to some tonic or strengthener which will assist Nature and help them to get on their feet and put the body into its proper condition. It is becoming more and more apparent that Nature's most valuable health-giving agents are to be found in forest plants and roots.

Nearly forty years ago, Dr. R. V. Pierce, now consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., discovered that by scientifically extracting and combining certain medicinal principles from native roots, taken from our American forests, he could produce a medicine which was marvelously efficient in curing cases of blood disorder and liver and stomach trouble as well as many other chronic, or lingering ailments. This concentrated extract of Nature's vitality he named "Golden Medical Discovery." It purifies the blood by putting the stomach and liver into healthy condition, thereby helping the digestion and assimilation of food which feeds the blood. Thereby it cures weak stomach, indigestion, torpid liver, or biliousness, and kindred derangements.

If you have coated tongue, with bitter or bad taste in the morning, frequent headaches, feel weak, easily tired, stitches or pain in side, back gives out easily and aches, belching of gas, constipation, or irregular bowels, feel flashes of heat alternating with chilly sensations, or kindred symptoms, they point to derangement of your stomach, liver and kidneys, which the "Golden Medical Discovery" will correct more speedily and permanently than any other known agent. Contains no alcohol or habit-forming drugs. All its ingredients printed in plain English on wrapper.

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative; two or three are cathartic.

UNUSUAL SUITS

Filed Against Saloon Man By a Prominent Woman.

Two suits were filed at Harrodsburg by Mrs. William J. Poteet, who belongs to a prominent family, against W. A. Bottom, of Lawrenceburg, a wealthy man who owns a circuit of saloons in that section. Don Carlos Moberly, age nineteen years, a son of Mrs. Poteet, became intoxicated, and entering a store, created such a disturbance as to necessitate his being arrested. She immediately filed suit against Bottom, who has a saloon there, for \$10,000 for selling to her son after being notified not to do so, and \$10,000 for selling to a minor and making an inebriate of him.

THE FAIR

The Fair draws trade by sheer force of values. It isn't so much our advertising that does it as the way we back up that advertising in the store. It is easy enough for anyone to advertise low prices, for low prices in themselves mean nothing. It is low prices coupled with good worthy quality that counts, and it is on just that combination that The Fair places dependence. When any person notes in our ads a particularly low price on some article which he or she wants and comes and examines the article, it is invariably found to be an even better bargain than the price in print would indicate. We invariably make in our policy to understate rather than to overstate. No one who comes here to investigate will be disappointed, unless it is agreeably.

The Fair The Fair

OUR WASHINGTON LETTER.

Now that the Standard Oil has had its innings, the tobacco trust is to be investigated at the capitol in the near future. Representative Stanley, of Kentucky, this week offered a resolution asking the Secretary of the Department of Commerce and Labor to inform the House whether a combination of interests exists between various tobacco companies, operating in violation of the Sherman anti-trust law. The resolution is sweeping and also calls for all facts which tend to show an attempt on the part of these companies to destroy the competition of independent or rival concerns. Mr. Stanley evidently intends to follow up the matter vigorously, and before the investigation is over it may be necessary for some interests to "smoke up" pretty vigorously in order to escape the attentions of the department of Justice which are being so generously distributed at present.

On account of the press of affairs, the President was forced, with much regret, to decline the invitation presented to him by Senator Blackburn this week from President Patterson, of the Kentucky State College, to attend the graduation exercises of that institution on June 7. The Kentucky Senator strongly urged the President to allow himself a brief vacation in order to attend these exercises, but Mr. Roosevelt found it impossible to do so. With Congress now anxious to wind up the session as speedily as possible, the rush of business will be great, and the welter of the big stick feels that it would be unwise for him to leave the scene of action.

Consul Atwell, of Roubaix, France, has reported to the Department of Commerce and Labor that a young French engineer has invented a wireless apparatus that promises to revolutionize not only telegraphy, but warfare as well. The machine weighs less than seven pounds and costs not more than \$10. It can be operated without masts or poles and is capable of being interrupted by no other wireless messages. The wonderful feature of the system, however, lies in the manner in which force waves can be propelled great distances. [It is said to be capable of exploding torpedoes at a distance and of driving them toward their mark or bringing them back at will, and of lighting electric lamps and starting dynamos at any distance and without wires. Some marvelous tests have already been made, according to Consul Atwell, and the French Minister of the navy has ordered that further and more exhaustive experiments be undertaken.]

If the Panamans don't behave like good children, their Uncle Sam will take them properly across his knee and spank 'em soundly. This is the ultimatum that the United States has delivered through Governor Hagoon, of the Canal Zone, to certain fire-eating natives of the little Republic, who conceive it is about time for the annual revolution. United States marines will trounce the revolutionary army if it does anything to annoy the dwellers in the zone or the inhabitants of Panama or Colon. If the army gets too obstreperous and insists on puncturing the peace of the isthmus, the marines will run it into the tall grass. So says Secretary Taft. There's enough trouble now with mosquitos and red tape. An opera bouffe war isn't wanted.

Col. John Hosby, who's doing guerrillas in Civil War days, were the bane of the Union Army attended the Grant birthday dinner at Boston, and

during a call at the White House this week he told President Roosevelt that he couldn't have been treated better. "At the dinner I sat between two Federal soldiers whom I had captured during the war," he said. "They were so kind to me before the dinner that I began to grow sorry that I had ever captured them. Before the dinner was over I had become sorry they had not captured me."

Col. Hosby now is one of the most reconstructed of all reconstructed Confederates, and is a great friend of the President.

There have been an appalling number of deaths among the animals at the National Zoo this week. A pathetic end was that of the big Arabian camel, which actually pined away and died of a broken heart. Some months ago the camel's daughter succumbed, and ever since then the mother has refused to be comforted. It was only by dint of much coaxing that the keepers induced the brute to eat, and it would lie hours at a time gazing vacantly into space. Frequent examinations disclosed no special ailment and early this week the ungainly animal crossed over into the Unknown Desert. Three loons recently added to the park collection starved themselves to death, one of the recently acquired red howler monkeys succumbed, and a number of small animals added to the mortality list.

—Our imports of potatoes for the first seven months of the current fiscal year amounted to 1,188,177 bushels, as against 78,188 bushels during a similar period in 1904-5 and 119,080 bushels in 1903-4.

—A syndicate has been formed to establish a ranch in South Pasadena, Cal., to breed elephants to supply the constant demand from menageries and parks. A natural jungle called Mineral Park has been selected, large enough to hold 200 to 300 animals.

—Buyers of cavalry horses in Oregon for the U. S. Army have met with poor success, though offering \$50 to \$60 for fairly good animals. Owners refuse to sell at these prices. The number of range horses has been greatly reduced in the past three years.

—Ten thousand wild horses on the plains south of the Great Northern road in the Columbia River Basin will be rounded up this month, branded, and many of them sold. From 500 to 600 riders will take part. This will be the last great roundup in the northwest, the settlement of eastern Washington making it impossible for stockmen to raise range horses.

LOCUSTS DUE IN KENTUCKY

Pests Scheduled to Arrive the Last Week in May.

The seventeenth year locusts will soon be heard in the land. In an official bulletin Secretary Wilson, of the Department of Agriculture, warns the country that this is the year for their reappearance in several States, including Ohio, Kentucky and Indiana.

In Kentucky, they will appear in the counties of Adair, Allen, Bath, Bourbon, Boyd, Breckinridge, Carter, Casey, Clark, Clinton, Cumberland, Estill, Fayette, Fleming, Franklin, Greenup, Jackson, Jefferson, Laurel, Lewis, McLean, Madison, Mason, McCallie, Montgomery, Owsley, Powell, Pulaski, Rockcastle, Russell, Shelby, Trimble and Wayne.

Secretary Wilson gives warning that the locusts may be expected during the last week in May. Although the locusts make a great deal of noise, the actual damage which they do is slight, Secretary Wilson says: "As a matter of precaution, however, it might be well not to locate new orchards this spring in recently cleared ground or in proximity to woods."

At any rate, the natives are sure that the "glorious climate of California" will withstand any number of earthquake shocks.

VERY LITTLE DAMAGE

Was Done to the Coming Crops by Recent Cold Snap.

H. F. Hillenmeyer, of Lexington, who is an authority on such things, says of the damage done by the recent cold snap: "There is not much damage done. The small clover is safe. The corn is not seriously hurt; that not yet up will not rot. The tobacco plants may be a trifle scorched."

"The fruit is uppermost in the minds of the great laboring class, to which a small difference in price means so much. None of the tree fruits are in the least injured, nor the bush berries. The gooseberries, currants, raspberries and blackberries are unscathed. The strawberries are killed right in the middle. The early formed berries are safe. The blossoms yet in the bud also. "The expanded blossoms are partly killed. The crop may be large, it may be immense, but its measure depends on the weather of the next few days. The grapes are all right, just a trifle injured, but the grape is a Trojan, and bears its suffering like a hero, and always comes to time."

"We hardly know what is lost; on its face, not much. If it stays dry, cold and windy, the final loss will be greater. If moist and warm, this now injured will pull through in safety. It is the last frost of the season. In a week we may count in safety the chickens not yet hatched. The bloom of the locust is full, the adage of the value of a dry May is with us. May the heat of June turn on us the big 'end of the horn of plenty'."

The folding baby carriage has arrived for the benefit of flat dwellers. Now let genius run riot until a baby is invented that can be shut up.

Filled With Exquisite New Garments.

The thought and effort of our buyers has, for months past, been expended without stint, that the occasion of our Spring Opening, the showing of all that is best in the whole textile world, should eclipse all others known to our customers.

The result of our painstaking care is here—such beautiful wearing apparel for women, the latest Parisian creations in Jackets, Suits, Dress Skirts, and Walking Skirts, and the trimmest and the neatest of the chic Silk Shirt Waist Suits and Shirt Waist.

And a glory of Silks—all the beauty and radiance of the Spring's brightest and most bewitching weaves and colorings. Such dress goods, wash fabrics—you can't get better in New York, Boston or Philadelphia.

Gloves and Neckwear—a woman's most exacting point on selecting apparel, but we can satisfy the most fastidious. The lowest possible prices on the best knit and muslin underwear—and hosiery, for woman or child, at figures it is impossible to equal anywhere.

No matter where your eyes rest when you are here, they will be greeted with the sight of something fresh and new, something that will appeal to your sense of the beautiful, something you wish to possess.
